SKILLS

Technical Skills: Git, Postman, Express.js, MongoDB, Node.js, React, JavaScript, CSS3, HTML5

Soft Skills: Effective Communication, Attention to Detail, Adaptability, Time Management, Teamwork

EXPERIENCE

Radiant Infonet | *Software Development Engineer*

Apr 2025 - Present

- Developed scalable backend applications and RESTful APIs using Node.js and Express.js
- Integrated and managed NoSQL databases, including MongoDB, for efficient data modeling and querying
- Collaborated with frontend teams to ensure seamless API integration and feature delivery
- Utilized Git for version control and Postman for API testing and debugging in agile environments

PROJECTS

E-Procurement Project |

- Developed multiple RESTful APIs for the E-Procurement website using Node.js and Express.js, supporting CRUD operations and advanced search with filters.
- Designed and implemented NoSQL database schemas in MongoDB, including handling nested data structures for accurate data retrieval.
- Utilized MongoDB Compass to fetch and interact with complex datasets, ensuring reliable backend data management.
- Tested and debugged APIs using Postman, resolved bugs and conflicts, and collaborated with the frontend team for seamless API integration.
- Managed code versioning and collaboration through Bitbucket (PRs, merges), tracked tasks on JIRA, and communicated with team members using Microsoft Teams.
